

AIR 1 serves my family with a positive and safe alternative to the other types of radio stations that don't always provide or broadcast child-friendly music or programs. Talk shows sometimes include foul language or disrespectful programs where as AIR 1 has neither of these. If LPFM displaced AIR 1 we would be without this family-oriented channel leaving us with the rarity of clean air broadcasting. AIR 1 provides service in the public interest as it gives an alternative, an out if you will, to some of the offensive, vulgar, violent or disturbing music we hear nowadays. Something our children should have a choice on whether they should have to listen to it or not. Thank you.
